**Some of the best Speckle Park calves I saw in Canada were out of Simmental cows. Calves are 1 month old.**

**Inspecting heifer weaners at Wayne and Arlene's ranch.**

## SHOW RING & CARCASS SUCCESS

Speckle Park's carcass reputation continues to grow in South East Queensland. In 2015, Waratah Kansas topped Class 3 at the Warwick Show in the Prime Cattle Hoof and Hook Competition. Winning second place on the hoof, Waratah Kansas was a stand out from the beginning. Waratah Kansas continued to shine taking first place on the hook with a score of 80.5/100. Kansas's overall ranking on the day against all classes was a staggering 2nd from 72 Head. Meat qualities highlighted were Rib Fat and P8 Fat scoring 15/15. Fat colour scored 5/5 along with Meat Texture. Meat Colour also received top marks of 10/10 and Fat Distribution was scored 7.5/10. Carcass Muscularity was also highly scored at 22/25. Waratah Kansas's EMA measured a sizable 130cm. But what was most impressive was his dressing percentage of 64.3%.

**Waratah Kansas, awarded 1st place at Warwick Show Prime Cattle Hoof & Hook Competition**

Once again, Downlands College has had the pleasure of campaigning the WARATAH SPECKLE PARK show team around the Darling Downs show circuit. Having won Senior Champion at Toowoomba Royal & Senior & Grand Champion at Beef Week in Rockhampton last year with Waratah Amy H11, it was thrilling to start 2016 with Senior & Grand Champion at Pittsworth Show with Waratah Spanish Angel & calf Waratah Larry. We've also been very fortunate to have Waratah Speckle Park cattle to catch the judge's eye in paraders competitions, with both Waratah Amy K12 & Waratah Wendy K69 gaining ribbons at Toowoomba Royal Show in the Paraders Competition for our members this year. We do wish to thank Laiton & Eric Turnham & families for the privilege of being able to show off the lovely eye-catching WARATAH SPECKLE PARK cattle.

***Jasmine Lamborn, Year 11 Student, Downlands College Cattle Show Team***

**Left: Downlands College Showteam pictured with Waratah Amy K12.**

**Below: Olivier Diack pictured with Waratah H11, awarded Champion Under 12 years paraders at Hawksberry Show 2016.**

A big congratulations to Olivia Diack, aged 6, who won first place in her Paraders class at the Hawksberry Show 2016. She then progressed to the finals to win Champion Under 12 years Paraders! Well done Olivia! Olivia was accompanied by Waratah H11 in the Paraders competition. We are proud to have bred such an outstanding cow. We would also like to extend our thanks to Alex Teuma for lending her cow to Paraders on the day.

## Greetings

Welcome to our third annual Speckle Park Sale. We have purposefully selected the cattle this year ensuring carcass quality and sound structure. We are pleased with the cattle on offer in 2016 and hope you are able to find the right animal to suit your individual breeding needs.

## New Sires

We at Waratah are excited to share with you a unique line up of cattle; offering bulls by new sires and bulls of varying ages. New sires this year include Codiak Putnam, Waratah Hume and Codiak Amigo. Our females on offer this year are also featuring new sires; Codiak Amigo and Waratah J30 who sold in our first sale as a yearling bull for \$9000.

## Waratah Achieves Results

We are thrilled the top selling bull at our 2014 and 2015 sale had been sired by Waratah bred bulls. It is very pleasing to achieve such results and to affirm our breeding program is working well. At the SPI sponsored national sale at Scone earlier this year, Waratah E17 was the second highest selling female at \$10 000. She was also awarded 'Champion Female of the Sale' on the day.

## Canada

Laiton had the privilege of travelling to Canada this year to attend the Summit 3 sale, The Supreme Speckle Park sale and The Source sale. The top price bull sold for \$60 000 CAD and females averaged close to \$9000 CAD across all three sales. While in Canada, Laiton had the opportunity to visit 16 Speckle Park farms across 3 states, meeting new breeders as well as returning to farms already visited on previous trips inspecting cattle. Keep an eye out for new genetics in the next few years! Laiton thoroughly enjoyed meeting with Canadian breeders and enjoyed their hospitality.

## Waratah Carcass Success

Waratah Speckle Park cattle were custom feed at Saxby Feedlot in 2015 with outstanding results. Our cattle, on average, had a carcass weight 20kg heavier than other British bred cattle resulting in an extra \$100 per animal. Waratah Speckle Park cattle are also continuing to win carcass competitions with amazing results. At the Warwick Show in 2015, Waratah Kansas won first place on the hook in Class 3.

## Thank You

A big thankyou to Downlands College, Toowoomba for preparing our cattle at shows around South East Queensland. Your hard work and showmanship are an attribute to your school and we are proud of your efforts.

We look forward to your company on sale day and please don't hesitate to contact us.

See you on sale day!

Regards,  
Eric, Helen, Laiton & Kayla Turnham

## Inspections

Cattle will be on display from 9.30 am on sale day. We welcome your inspection of the cattle prior to sale day by appointment only.

## Refreshments

A Speckle Park BBQ and light refreshments will be provided on the day by the Black Mountain Public School P & C, with all proceeds going to the school.

The Speckle Park beef provided on sale day was bred at Waratah.

## Travel Arrangements

The sale will be conducted at 'Waratah', Guyra, situated 38 km north of Armidale and 60km south of Glen Innes (see map on page 45).

By air, Armidale is accessible via Sydney only. The flight is approximately 1 hour. 'Waratah' is 40 minutes' drive from the Armidale (NSW) Airport. Car hire is available from the Airport.

By road Guyra is centrally located approximately 6 hours between Sydney and Brisbane on the New England High way.

## Accommodation

Motels are available in Guyra, Armidale and Glen Innes.

## Outside Agents Rebate

A rebate of 2% is available to outside agents introducing buyers one business day, (Friday 9 July by 5 pm) prior to the sale in writing to Colin Say & Co – fax: (02) 6732 4073 or email: [office@colinsay.com.au](mailto:office@colinsay.com.au)

Outside agents **MUST** attend the sale on sale day and settle on the clients behalf within 7 days after the sale. Please note this will be strictly adhered to.

## Elite Livestock Auctions

If unable to attend the sale on the day, clients are able to live bid online at [www.elitelivestockauctions.com.au](http://www.elitelivestockauctions.com.au) Please refer to the 'How to Register with Elite Livestock Auctions' page in this sale catalogue. Please direct any questions or concerns to Elite Livestock Auctions by phoning 1300 15 31 35.

## Herd Health Status

Animals in the sale have met all necessary health requirements. Cattle are breed from Bovine Johne's protected status area and have been inspected by Embryo-Life veterinarian Dr. Udo H. Mahne. For individual breeding certificates contact Udo on 0467 882 801.

## Sale Day Safety

Your safety on sale day is important to us. Our cattle are quite and well-tempered however, animal behaviour can be unpredictable at times. Animals can react differently when exposed to large crowds of people and noise. If you wish to enter inspection yards please be mindful of the animals. Please do not enter sale pens with small children or if you have limited mobility.

## Supplementary sheet

Updated weights, scans and pregnancy diagnosis will be provided on sale day along with any other new or additional information.

## Raw Scan Data

Raw scan data will be available on the supplementary sheet on sale day.

## Transport

All cattle that are to be transported from 'Waratah' need to be picked up no later than 25 July 2016, expect for overseas purchased cattle. Arrangements for overseas purchases need to be made with the vendor prior to sale day. No pickup available on Saturdays.

For transport arrangements please ring Nathan Purvis on 0427 324 078 or Blake O'Reilly on 0448 213 668.

## Mobile Coverage

There is good mobile phone coverage at 'Waratah'. Please make arrangements with agents for phone bidding.

## Delivery of Embryos

They can be privately picked up or transported through Wyatt Artificial Breeders (02) 6629 3177 or 0418 628 157.

## Semen Rights

Waratah Speckle Park retain semen rights in a number of bulls each year. This will be outlined under the Lot number or on the supplementary sheet.

### Breeding Guarantees

---

#### Bulls

All bulls are guaranteed breeders and have passed a semen test and structural assessment prior to the sale. For breeding certificates please contact Embryo-Life veterinarian Dr. Udo H. Mahne on 0467 882 801.

In the unlikely event of infertility, the vendor guarantees that (without expenses, interest, costs and damages) if the bull proves to be totally infertile or totally incapable of natural service, provided it is not caused by injury, disease, mismanagement or negligence since leaving the sale, to either replace with an animal of comparable value upon return of the affected bull or credit (purchase price, less the salvage value) will be given at the next sale or on a private sale animal.

Bulls that are run in a multiple joined environment are not guaranteed by Waratah for breakdown or injury. Yearling bulls (under 18 months) are not guaranteed if joined with more than 30 cows in their first year.

If the bull does not possess a reasonable fertility, although not totally infertile, any claim shall be considered on its merits by the vendor and his veterinarian. Any complaint must be lodged with a relevant veterinary certificate within 6 months of the sale direct to the vendor.

#### Females

All females are sold as guaranteed breeders. In the unlikely event that a female cannot be successfully bred by natural service within 6 months of the sale date or by the time the female reaches 22 months, provided that the purchased female has not been injured, contracted disease, been mismanaged or neglected since leaving the sale, upon return of the affected female, the vendors' guarantees (without expenses, interest, costs and damages) the purchase be refunded or a replacement female will be

given. This guarantee does not apply to a female that is entered into an embryo transfer programme. Any complaint must be lodged to the vendor with a relevant veterinary certificate.

#### Insurance

---

We encourage buyers to insure their purchased lot or lots at the time of sale. All care will be taken from the fall of the hammer but it is the purchaser's responsibility for any injury or death occurred thereafter. We recommend buyers to organise insurance for your purchases with their Agent or talk with Colin Say & Co to help arrange insurance for you on the day.

#### Advice Disclaimer

---

At Waratah Speckle Park we are willing to provide assistance to those seeking guidance and our opinion on cattle. However, the final decision is that of the purchaser. Waratah Speckle Park will not be responsible for the final results and performance of purchases outside our warranty.

#### Sale Catalogue Disclaimer

---

The vendors have taken care to provide information that is correct to the best of their knowledge at the time of publication. However, neither the vendors or the selling agents make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. It is advised that you seek independent verification of any information contained in this catalogue before relying on such information announcements made on sale day supersedes information in this catalogue.

Weaners Gapview, 2016.

### CARING FOR WARATAH SPECKLE PARK BULLS: PROTECT YOUR INVESTMENT

#### The Waratah Way

The purchase of a Waratah bull is a long-term investment, so they should be treated with care and in a gentle manner. Always handle them quietly and at a walking pace. By doing so, you will earn their respect and maintain their good temperament. Our bulls are vaccinated and drenched prior to sale and can serve approximately forty cows as two year olds and slightly more as older bulls. They are handled with dogs and contained using electric fencing, so they will treat both with respect. A Waratah Bull provides excellent opportunities in genetics and can improve the value of your herd into the future.

#### Transportation & Handling

At the fall of the hammer at auction you take possession of your purchase, so from that moment, it is important to treat your new investment with care. You might like to consider insurance for transportation back to your property and for the first few months of ownership. A bull leaving Waratah should be unloaded at your yards, with house cows, steers or herd cows as companions. Always separate bulls from different origins into different yards. Remember your bull is leaving the security of a mob and will arrive in unfamiliar territory at your property.

#### Vaccinations/Treatment

Always consult with your veterinarian and establish a health treatment plan to be given on arrival at your property. It is important to vaccinate against vibriosis, as it is a common cause of infertility and is transmitted by infected bulls. Fortunately, this disease is easily prevented by vaccination prior to joining each year. A drench is important when he is finished serving the cows. You may also treat bulls yearly with other injections that are appropriate for your local area/state.

#### Behaviour & Temperament

The temperament of any bull is best demonstrated by their behaviour in the yard before auctioning begins. During and after action and/or on arrival at your property their behaviour may change due to changes in environment and increased stress. Bulls may display a change in temperament, becoming excited and/or agitated. A number of stimuli may cause this change including unusual and loud noises, new people, crowds, a new environment, new feed, loss of mates, a new herd and different handling methods. This can be very upsetting to animals. It is best to allow bulls' time to adjust to their new environment. You can assist this by providing adequate feed, water, low noise levels and a mate i.e. house cow. Once settled into their new environment bulls' temperament will return to normal.

#### Young Bulls (12-18 months)

It is possible for a young bull to settle in with older bulls, however the paddock needs to be large enough for the young one to keep away from the others and to find adequate feed. As the new bull, he will get the last of the feed available because of the pecking order. Young bulls are still growing and need enough feed to maintain their growth pattern, which may require supplement feed in the first breeding season. Having enough paddock area also helps them to be able to settle the cows quickly and efficiently. We recommend mating loads of only 25-30 females. Never overwork young bulls. As they are not fully developed they will be leaner and carry less body fat reserves. If their condition score declines to below 3, sperm production may be compromised. Their condition is essential for good fertility. It is also important to note that the joining season may need restricting to 6-8 weeks if conditions are poor and where good quality feed is unavailable.

#### Mating

Cows should be seen cycling in groups with male calves hanging around before mating. If using several young bulls, they should be run together for a few weeks prior to joining. This should reduce problems later on as they will have already established a hierarchy. Also, young bulls that have been recently purchased should not be joined together with older bulls.

Always observe your bull when he is working as accidents can happen. Bulls can scratch their penis on dry manure on the cows backside which can lead to infection with large sores forming. If treated quickly this can be remedied. If a bull is not serving he needs to be replaced, but remember, if the cow has been served before the observer has arrived, the bull may not repeat the performance. Remember any day he is not working can cost you money.

#### Nutrition

When your new bull arrives at your property, provide adequate hay and water and leave him alone until the next day so he has a chance to settle. Before you join your bull with a herd, the cows should be on a rising plane of nutrition to ensure they have the greatest possible chance of cycling. When the season is finished, the bull should be put away with quality, adequate feed, as this will help prevent fighting.

**Please remember: Always respect your bull and he will respect you.**

### HOW IMPORTANT IS THE BULL IN YOUR BREEDING PROGRAM?

The importance of the bull in a cattle breeding program is often underestimated. A bull is responsible for half of all the genetic material in your herd, making it your most valuable investment. Consider that a cow produces just one calf per year, passing on her genetic material to her one calf, whilst a bull paired with the cows in your herd passes on his genetic material to all progeny. This can be 20 to 50 calves per year or more than 200 calves over the lifetime of the bull. A good quality bull can improve your cattle herd for generations.

All bulls should go through a breeding soundness exam before each breeding season. Here at Waratah Speckle Park, our bulls are examined by a qualified vet before the sale. Knowing that the bull impacts half of all calves bred each year, it is good to know how much this investment really costs. When purchasing a bull it is important to remember, the price of the bull can be offset by the future sale value of his progeny. Better quality calves have higher sale value and therefore return the value of your investment. Below is a table which shows the number of calves needed to pay off the price of the bull at different calf sale weights.

Assuming a sale price of \$3/kg, a \$4,000 bull would need to breed 5.33 calves weighing 250kg to pay for himself while a \$10,000 bull would only need to breed 13.33 calves. To offset the higher initial bull investment only 8 more calves are required to be bred in the first year. Thereafter, the bull's continued production of quality calves has the potential to attract a higher sale value. Using Waratah Speckle Park Bulls in your cross breeding program will inject hybrid vigor into your herd increasing weaner weights which can lift sale prices. Remember, investing in a good quality bull can be offset by the future sale value of his progeny and improve your cattle herd for generations to come.

Bull Price	Weight of Calves At Sale (kg)	Number of calves needed to pay off bull price
\$4,000	300	4.44
	250	5.33
	200	6.66
\$6,000	300	6.66
	250	8
	200	10
\$8,000	300	8.88
	250	10.66
	200	13.33
\$10,000	300	11.11
	250	13.33
	200	16.66

***\*Assuming a price of \$3/kg***

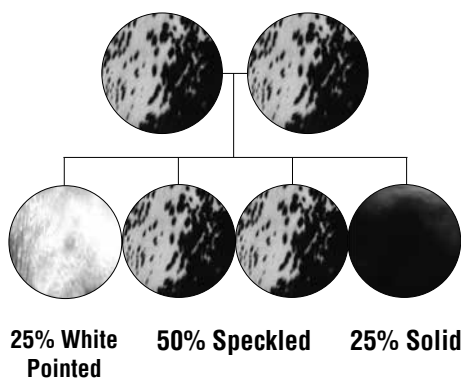

# UNDERSTANDING COLOUR PATTERNS - GUIDE ONLY

It is important to understand how Speckle Park colour patterns work in order to achieve your breeding goals. While some breeders are mostly interested in producing speckled cattle others want to inject Speckle Parks' notorious hybrid vigour while retaining predominantly black herds. For example, when a solid black Speckle Park bull is joined with 100% purebred Angus cows the resulting calves will be predominately solid black. Another example is when Angus cows are joined to a White Speckle Park bull the resulting calves will be predominately speckled.

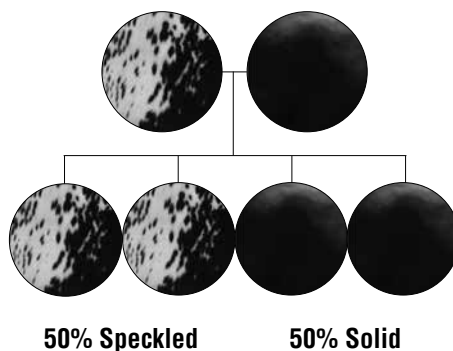

Speckle Park cattle have four distinct colour patterns; speckled, leopard, white pointed and solid black. The speckle and leopard colour pattern are genetically the same except for varying degrees of spotting. Some Speckle Park cattle can produce red colour patterns if both parents carry the recessive red gene.

Please remember when dealing with nature individual results will vary. This is to be used as a guide only.

# WARATAH SALE NOW WITH LIVE BIDDING VIA LIVE STREAMING

**Unable to make sale day – Bid online at home via live internet broadcast.**

Waratah is excited to partner with Elite Livestock Auctions this year allowing clients to live bid from home. Our sale will be broadcasted live via the internet, with full video, imagery and sound allowing clients to bid online in real-time. Buyers can view the auction and bid using a computer, iPad, iPhone or Android devices. To register and bid follow the step by step guide provided below.

## HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Welcome to the new age of selling livestock in Australia and **"Happy Bidding"**

- 1  Simply go to **www.elitelivestockauctions.com.au** using your desktop, laptop, iPad, iPhone or android device
- 2  Click on the **"Sign Up"** page / link
- 3  Create a bidding profile using the bidder registration page.  
(You can either register as a livestock agent, company or private buyer.)
- 4  Agree to the Elite livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue
- 5  Click **"Register"**
- 6  You will then be notified by email that an account has been created
- 7  Once an account has been created you are all **"Set to Bid"**
- 8  Each auction can then be viewed by clicking **"Live Auction"** logo on the Elite Livestock Auctions website
- 9  Once you receive email notification that your account has been created please go to the sale you wish to bid at and click **"Request to Bid"**
- 10  The sale agents will then approve your application to bid and on the sale catalogue you will see **"✓ Bid Request Approved"**
- 11  On Sale day simply login, click **"Enter Auction"** on the catalogue page and you can start bidding.  
(There is no need for software download)
- 12  At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

HWY. 4 SPECKLE PARK 20L

**DAM: CODIAK GNK 24T**

LEIGH-AL-ANN-LILLY 2D

**Notes:** Codiak Amigo is an eye appealing sire that offers length and growth. His quiet nature is an added bonus. His half sister is a show champion in Canada and his half brother sold for \$17 500 Canadian in the 2014 Summit 3 sale. His outcross pedigree makes him ideal to be bred to any Speckle Park female in Australia. BW 33.5kg. **Selling: 4 bulls 12 females**

### P.A.R PAPA RAZZI 6P

Born: 26/02/2004

### PAR 6P

Colour: speckle

PAR KING PIN 1K

**SIRE: PAR MR. POWERSTROKE 4M**

ASPEN ACRES KAABA KIN 4K

PAR KISMIT 10K

**DAM: MONALISA OF PAR 6M**

DOUBLE RR ANGEL 86'88

**Notes:** Papa Razzi is a balanced bull offering good structure, thickness and carcass quality. He was named Grand Champion bull at Canadian Western Agribition in 2005 and in 2004 was Grand Champion Bull at Farmfair. **Selling: 7 bulls 1 female**

## REFERENCE SIRES

### WARATAH FLASH F7

Born: 14/09/2010

### LST F7

Colour: white

A & W JOEY 55P

**SIRE: RIVER HILL TRAFFIC JAM 26T**

CALAMASUE 26R

SPOTS 'N' SPROUTS JUNO 103J

**DAM: STAR BANK 99M**

STAR BANK 11H

**Notes:** Flash is considered the best Waratah bull in the 2010 drop. He adds additional length to his progeny. He was the sire of the top selling bull in the 2014 Waratah sale.

**Selling: 1 bull 2 females**

### WARATAH HUME H14

Born: 28/06/2012

### LST H14

Colour: speckle

BELMORAL'S SPECIAL 99H

**SIRE: A & W 15R**

TRIPLE A GEM 15G

STAR BANK LACERTA 68L

**DAM: 68L PRARIE HILL AMY'S GIRL F8**

PRAIRIE HILL AMY'S GIRL 21K

**Notes:** Waratah Hume was the Royal Brisbane Champion in 2013. Hume is a bull with real sire character. He is thick and powerful with a big hindquarter. Hume's full sister was the Grand Champion at Beef Australia in 2015 and Hume was Reserve Senior Champion.

**Selling: 5 bulls**

### SPOTS 'N' SPROUTS STANDS ALONE 300X JKH 300X

Born: 11/03/2010

Colour: white

HWY. 4 SPECKLE PARK 20K

**SIRE: STYALS LIGHTNING LADD 14P**

LIGHTNING LADY 10C

STAR BANK LACERTA 68L

**DAM: SPOTS 'N' SPROUTS 2R**

SPOTS 'N' SPROUTS 21L

**Notes:** A white Styals Lightning Ladd son who had a low birth weight of 35kg. When I saw him in Canada he was a free moving, quiet bull with lots of muscle.

**Selling: 5 bulls 1 female**

### CODIAK PUTNUM 61Y

Born: 2/06/2011

### GNK 61Y

Colour: white

CODIAK PHLEP GNK 3P

**SIRE: CODIAK OSCAR GNK 8S**

CODIAK MATEUSA RKW 63M

FLATLAKE BUZZ 60K

**DAM: NORTHERN LIGHTS 14N**

CODIAK KLIPSO RKW 31K

**Notes:** Putnum is a long, thick, white Speckle Park sire who won Senior Speckle Park Champion and Reserve Speckle Park Grand Champion at Farm Fair International 2013.

**Selling: 3 bulls 2 females**

### WARATAH J30

Born: 26/6/13

### LST J30

Colour: white

PAR MOO FASSA 03M

**SIRE: CHAMPAGNE PRETENDER D1**

NOTTO PRETENDER 64P

RIVER HILL SAMSON 25S

**DAM: WARATAH EMBER E26**

STAR BANK 54R

**Notes:** Waratah J30 offers great volume and thickness. He was a stand out amongst the yearling bulls. He was the highest selling yearling bull in the 2014 sale.

**Selling: 4 females**

### WARATAH WILLIS G12

Born: 26/8/11

### LST G12

Colour: white

RIVER HILL TRAFFIC JAM 26T

**SIRE: RIVER HILL WALKER 60W**

RIVER HILL SHOW ME OFF 60S

HWY. 4 SPECKLE PARK 2H

**DAM: CODIAK NICK LADY 25N**

CODIAK PRAIRIE FIRE 01J

**Notes:** Waratah Willis is a large framed white speckled bull who moves freely and covers the ground well. He was sold to Linaubin Speckle Park in 2013.

**Selling: 1 bull**

### WARATAH JUST CHILLIN J154

Born: 9/09/2013

### LST J154

Colour: white

PRAIRIE HILL JOHN WAYNE 50S

**SIRE: WARATAH EDDIE E22**

NOTTA PHO-FINISH 54P

RIVER HILL SAMSON 25S

**DAM: WARATAH EMBER E26**

STAR BANK 54R

**Notes:** Waratah Just Chillin is an early maturing thick bull. He is a structurally correct bull who is soft with an even fat cover and a smooth muscle pattern. He was chosen for these reasons as a backup bull as a yearling. He sold in our 2015 sale for \$18 000.

**Selling: 1 female**

## MISSING LEPTOSPIROSIS VACCINATIONS COULD LAY YOU OFF WORK FOR MONTHS

In addition to reducing the reproductive performance of beef and dairy herds, leptospirosis can spread from cattle to humans and develop into an ongoing chronic-fatigue-like illness

Don't risk your family, your employees, yourself or your herd. Vaccinate your cattle with Ultravac® 7in1\*, the only 7in1 that prevents shedding of leptospires, and can be used in calves from 4 weeks of age.

**Protection against leptospirosis and clostridial diseases**

FOR MORE INFORMATION, SPEAK TO YOUR LOCAL ZOETIS REPRESENTATIVE OR CALL 1800 963 847

\*See product leaflet for details of administration and product claims.

## THE ALL NEW 3800HD AND CREEP GATES

### Controlled creep feeding to maximise profit

**Young calves require a developed rumen to digest pasture and convert it into weight gain.**

Without a developed rumen, early pasture (that is highly soluble) will leave the animal before it is digested, wasting your cheapest source of energy and protein.

To get the most from your pasture, **begin creep feeding early.**

**Supplementing starch (pellets or grain) to calves at 4 weeks** will transition the rumen to help digest pasture and **convert into weight gain.**

**After the rumen is developed (at 16 weeks) you are able to increase profit** by controlling the supplement (200g/day for lambs and 750g/day for calves) to complement the rumen and maximise pasture digestion.

## REFERENCE SIRES & DAMS FOR EMBRYO LOTS

SIRE	DAM
<b>Starbank Lacerta</b> has the most progeny resisted in Canada and has the second highest registered number of progeny in Australia. His reputation speaks for itself.	<b>Waratah Melisa G34</b> was sold to a South Australian client for \$10 000.
<b>Waratah Flash</b> was the pick of the Waratah bulls in 2010. He is also the sire of the top selling bull in the 2014 Waratah sale.	<b>Waratah E25</b> is a PRAIRIE HILL AMY'S GIRL 21K daughter who is sired by HWY. 4 SPECKLE PARK 2H. She is one of three foundation sisters who gives us our Waratah Amy line of females in our herd. Our Amy line of females have been very successful in the show ring and are proven mothers. They have good udders and ample milk supply.
<b>Codiak Amigo</b> is an eye appealing sire that offers length and growth, his quiet nature is an added bonus. To see how Codiak Amigo breeds take a look at his progeny in this year's sale. BW 33.5kg	<b>Waratah E23</b> is the foundation cow for Pho-Finish line of females at Waratah. She is a bigger framed cow that carries good body length and depth.
	<b>Waratah H23</b> is the first Waratah Spanish Angel F12 daughter we used in our flushing program. Her mother was our first Interbreed Show Champion female.

## 2 SPECKLE PARK STUD SEMEN PACKAGES

### SEMEN PACKAGES YOGI GOES REDNECK 7Y JSF TRADE SECERT 11A

## DIRECTIONS TO WARATAH

Thank you

We would like to extend our sincere thanks for coming and attending our sale today. We know many of you have travelled great distances to be here today. Your support is greatly appreciated. We hope you found what you were looking for and wish you well with your purchases.

We would like to thank our sponsors for their support with the sale catalogue and their presence on sale day.

Furthermore, we would like to acknowledge the tremendous help and support we receive from our family and friends each year in the lead up and on sale day. Their hard work and participation make this day a success and we could not do it without them!

Safe travels home and until next year...

Sincerely,

Eric, Helen, Laiton & Kayla Turnham

# No Bull

*what others have to say*

“We had the privilege of feeding Waratah Speckle Park Cattle in 2015 at our feedlot. The animals maintained good health and had impressive weight gains and carcass grading. Cattle had remarkable temperament and astounding climatic adaptability.”

**Craig Forest, Managing Director  
Saxby Feedlot, Kilkivan, QLD**

# No Bull

*what others have to say*

“The one thing I was impressed with Speckle Park was the consistency of the carcasses. If you finished them on barley for 100 days and slaughtered them at 550kgs live weight, the rib eye were almost identical in size and fat distribution. The marbling was really nice...fine specks of fat that you could see throughout the meat. And of course the taste experience.

When I tried Speckle Park for the first time, I knew I had to raise this breed. I was hooked. I hope you have the same results in Australia.”

**Ken Malterer, Canadian Speckle Park Breeder**

One of Ken's Speckle Park yearling bulls.
