AUSTRALIA'S BIGGEST SINGLE VENDOR SPECKLE PARK SALE

PHOTO GALLERY

CLIENT ACHIEVEMENTS

We are thrilled to share with you what clients have achieved over the past 12 months with their purchases from Waratah. It is very pleasing to see client's achieve such results and affirms to us our breeding program is producing cattle that are complimenting client's cattle operations and endeavours. Client achievements are testament to their hard work and dedication preparing their animals for competition or sale.

Sydney Royal Easter Show Success for Katrina Doak

Katrina Doak exhibited an outstanding pure bred Speckle Park steer at the Sydney Royal Easter Show earlier this year. It had the highest dressed weight in the competition, dressing at 66.6% which was 3% higher than any other steer at the show. The steer also scored maximum points for fat coverage, colour and rib fat. It received an impressive 14.5/15 for rib eye area and 9/10 for muscle score. Katrina's steer was sired by Waratah J30. It's great to see Speckle Park cattle continue to impress at carcass competitions. Hats off to you Katrina for your hard work in preparing your Speckle Park steer for the show.

Agnes Banks Cattle Company

In February, Waratah H11 was exhibited by Agnes Banks Cattle Company at the Luddenham Show where she won Senior Champion female. She then went on to take 3rd place at the Royal Easter Sydney show as well as the Castle Hill Show. Congratulations to Agnes Banks Cattle Company on your success this show season.

Mount Eccles Speckle Park

Congratulations to Mount Eccles Speckle Park who recently sold Speckle Park cattle at the recent Scone SPI Sale for \$10 000 and embryos for \$2100.

Lin Aubin Speckle Park

We would like to thank Lin Aubin Speckle Park for their support over the years. They recently sold cattle at the recent SPI Sale in Scone for \$6000.

Rose Hill Speckle Park

We would also like to congratulate Rose Hill Speckle Park on their presentation of sale animals at the recent Scone SPI Sale. Their heifer won Champion Heifer on the day and sold for a staggering \$15 000.

PLEASE BRING THIS CATALOGUE TO THE SALE

Greetings,

We would like to personally welcome you to our fourth annual Speckle Park bull and female sale. 2017 has kicked off to a cracker start with not only improved rainfall here at Waratah but exceptional cattle prices. This year's line-up of cattle aims to continue the high quality bulls and females sold in previous years. We are also excited to be offering, for the first time in this year's sale, embryos available for export to Canada and New Zealand. Over 100 embryos have already been sold overseas and we continue to work with clients to supply genetics internationally.

We are pleased to offer clients the biggest single vendor Speckle Park sale in Australia. Over the past nine years, Waratah has grown from a small start-up operation of 30 imported embryos into one of Australia's largest Speckle Park cattle producers. We

are pleased to be able to provide clients with the largest variety of bloodlines in one location as well as the ability to view cattle numbers which have all be raised under the same conditions. This year we are offering 24 sire lines throughout the sale giving clients more variety in one location. At Waratah, clients have the advantage to view first hand animal's lineage with a large number of parents, grandparents, aunts and siblings on property.

New sires for our female heifers include JSF Trade Secret, PAR Ace in a Hole & Aspen Acres TNT. This is the first opportunity these bloodlines are being offered at auction in Australia. We are also pleased to be offering for the first time CN Zpotz Zazu semen for pure bred use in Australia and JSF Continental embryos. Don't miss your opportunity to purchase these new genetics.

A recent article in the Land Newspaper titled 'Are Speckle Park's the new Angus' sparked our interest and raised the question 'does this statement have any merit?' Any breed can win a carcass or feedlot competition, but a breed that can do it consistently will stand out from the rest. Speckle Park cattle have been very consistent over the past years in all carcass and feedlot competitions with outstanding weight gains and marbling from both grass and grain as well as having consistent above industry average yields. The demand for Speckle Park cattle continues to grow stronger each year with buyers now paying a premium for Speckle Park cattle. A recent Auctions Plus report from 17 April to 16 May 2017 showed unjoined females making 440c/kg to 615c/kg which is far above the average for all other breeds. Speckle Park cows and calves have been topping at \$3025 with an average of \$2694, while other breeds combined average is \$1883. All breed combined PTIC cows averaged \$1490 while Speckle Park PTIC cows averaged \$2654. Speckle Park heifers on average are selling for \$1455 more than all other breeds. It's great to see Speckle Park cattle continue to make their mark on the cattle industry. This report highlights the growing high demand for Speckle Park cattle in Australia.

We look forward to your company sale day, or please join us online at www.elitelivestockauctions.com.au

Best Regards,

Eric, Helen, Laiton, Kayla & Dustin Turnham

SALE INFORMATION

Inspections

Cattle will be on display from 9.30am on sale day. We welcome your inspection of the cattle prior to sale day by appointment only.

Refreshments

A Speckle Park BBQ and light refreshments will be provided on the day by the Black Mountain Public School P & C, with all proceeds going to the school. The Speckle Park beef provided on sale day was bred at Waratah.

Travel Arrangements

The sale will be conducted at 'Waratah', Guyra, situated 38km north of Armidale and 60km south of Glen Innes.

By air, Armidale is accessible via Sydney and Brisbane. The flight is approximately 1 hour. 'Waratah' is 40 minutes drive from the Armidale (NSW) Airport. Car hire is available from the Airport.

By road Guyra is centrally located approximately 6 hours between Sydney and Brisbane on the New England Highway.

Accommodation

Motels are available in Guyra, Armidale and Glen Innes.

Outside Agents Rebate

A rebate of 1% is available to outside agents introducing buyers one business day (Friday, 7 July by 5pm), prior to the sale in writing to Ray White Rural Guyra – fax: (02) 6779 2034 or email: rural.armidale.nsw@raywhite.com and settle on the clients behalf within 7 days after the sale. A 2% rebate is available to outside agents who supply a letter of introduction as above and attend the sale with clients. Agents are required to settle on the client's behalf within 7 days after the sale.

Elite Livestock Auctions

If unable to attend the sale on the day, clients are able to live bid online at www.elitelivestockauctions.com.au. Please refer to the 'How to Register with Elite Livestock Auctions' page in this sale catalogue. It is highly recommended to register with Elite Livestock prior to sale day if using this facility. Please direct any questions or concerns to Elite Livestock Auctions by calling 1300 15 31 35.

Herd Health Status

Animals in the sale have met all necessary health requirements. Cattle are bred from Bovine Johne's protected status area and have been inspected by Guyra District veterinarian Dr. Lisa Brown. For individual breeding certificates please contact Lisa on (02) 6779 1173. Waratah Speckle Park is LPA and MSA accredited.

DNA Typed

All stud females have been DNA typed. If bulls are purchased for pure bred use they will need to be DNA typed by the purchaser before calves can be registered.

Sale Day Safety

Your safety on sale day is important to us. Our cattle are quite and well-tempered however, animal behaviour can be unpredictable at times. Animals can react differently when exposed to large crowds of people and noise. If you wish to enter inspection yards please be mindful of the animals. Please do not enter sale pens with small children or if you have limited mobility.

Supplementary sheet

Updated weights, scans and pregnancy diagnosis will be provided on sale day along with any other new or additional information.

Raw Scan Data

Raw scan data will be available on the supplementary sheet on sale day.

Transport

All cattle that are to be transported from 'Waratah' need to be picked up no later than 27 July 2017, except for overseas buyers. Arrangements for overseas buyers need to be made with the vendor prior to sale day. No pickups available on Saturdays.

For transport arrangements please ring Blake O'Reilly on 0448 213 668.

Mobile Coverage

There is good mobile phone coverage at 'Waratah'. Please make arrangements with agents for phone bidding.

Delivery of Embryos

Embryos can be privately picked up or transported through Wyatt Artificial Breeders (02) 6629 3177 or 0418 628 157. Export embryos are stored at Global Reproduction Solutions in Victoria. Please contact Dominic and Joanne Bayard on (03) 5764 1224 or 0427 732 538.

Semen Rights

Waratah Speckle Park retain semen rights in a number of bulls each year. This will be outlined under the Lot number or on the supplementary sheet.

Breeding Guarantees

Bulls

All bulls are guaranteed breeders and have passed a semen test and structural assessment prior to the sale. For breeding certificates please contact Guyra District vet Dr. Lisa Brown on (02) 6779 1173

In the unlikely event of infertility, the vendor guarantees that (without expenses, interest, costs and damages) if the bull proves to be totally infertile or totally incapable of natural service, provided it is not caused by injury, disease, mismanagement or negligence since leaving the sale, to either replace with an animal of comparable value upon return of the affected bull or credit (purchase price, less the salvage value) will be given at the next sale or on a private sale animal.

Bulls that are run in a multiple joined environment are not guaranteed by Waratah for breakdown or injury. Yearling bulls (under 18 months) are not guaranteed if joined with more than 30 cows in their first year.

If the bull does not possess a reasonable fertility, although not totally infertile, any claim shall be considered on its merits by the vendor and his veterinarian. Any complaint must be lodged with a relevant veterinary certificate within 6 months of the sale direct to the vendor.

Females

All females are sold as guaranteed breeders. In the unlikely event that a female cannot be successfully bred by natural service within 6 months of the sale date or by the time the female reaches 22 months, provided that the purchased female has not been injured, contracted disease, been mismanaged or neglected since leaving the sale, upon return of the affected female, the vendors' guarantees

(without expenses, interest, costs and damages) the purchase be refunded or a replacement female will be given. This guarantee does not apply to a female that is entered into an embryo transfer programme. Any complaint must be lodged to the vendor with a relevant veterinary certificate.

Insurance

We encourage buyers to insure purchased lot or lots at the time of sale. All care will be taken from the fall of the hammer but it is the purchaser's responsibility for any injury or death occurred thereafter. We recommend buyers to organise injury insurance with their Agent or David Difranti 0412 328 911, from WFI Insurance will be available on the day.

Advice Disclaimer

At Waratah Speckle Park we are willing to provide assistance to those seeking guidance and our opinion on cattle. However, the final decision is that of the purchaser. Waratah Speckle Park will not be responsible for the final results and performance of purchases outside our warranty.

Sale Catalogue Disclaimer

The vendors have taken care to provide information that is correct to the best of their knowledge at the time of publication. However, neither the vendors nor the selling agent make no other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. It is advised that you seek independent verification of any information contained in this catalogue before relying on such information. Announcements made on sale day supersede information in this catalogue.

PROTECT YOUR INVESTMENT

The Waratah Way

The purchase of a Waratah bull is a long-term investment, so they should be treated with care and in a gentle manner. Always handle them quietly and at a walking pace. By doing so, you will earn their respect and maintain their good temperament. Our bulls are vaccinated and drenched prior to sale and can serve approximately forty cows as two year olds and slightly more as older bulls. They are handled with dogs and contained using electric fencing, so they will treat both with respect. A Waratah Bull provides excellent opportunities in genetics and can improve the value of your herd into the future.

Transportation & Handling

At the fall of the hammer at auction you take possession of your purchase, so from that moment, it is important to treat your new investment with care. You might like to consider insurance for transportation back to your property and for the first few months of ownership.

A bull leaving Waratah should be unloaded at your yards, with house cows, steers or herd cows as companions. Always separate bulls from different origins into different yards. Remember your bull is leaving the security of a mob and will arrive in unfamiliar territory at your property.

Vaccinations/Treatment

Always consult with your veterinarian and establish a health treatment plan to be given on arrival at your property. It is important to vaccinate against vibriosis, as it is a common cause of infertility and is transmitted by infected bulls. Fortunately, this disease is easily prevented by vaccination prior to joining each year. A drench is important when he is finished serving the cows. You may also treat bulls yearly with other injections that are appropriate for your local area/state.

Behaviour & Temperament

The temperament of any bull is best demonstrated by their behaviour in the yard before auctioning begins. During and after action and/or on arrival at your property their behaviour may change due to changes in environment and increased stress. Bulls may display a change in temperament, becoming excited and/or agitated. A number of stimuli may cause this change including unusual and loud noises, new people, crowds, a new environment, new feed, loss of mates, a new herd and different handling methods. This can be very upsetting to animals. It is best to allow bulls' time to adjust to their new environment. You can assist this by providing adequate feed, water, low noise levels and a mate i.e. house cow. Once settled into their

new environment bulls' temperament will return to normal.

Young Bulls (12-18 months)

It is possible for a young bull to settle in with older bulls, however the paddock needs to be large enough for the young one to keep away from the others and to find adequate feed. As the new bull, he will get the last of the feed available because of the pecking order. Young bulls are still growing and need enough feed to maintain their growth pattern, which may require supplement feed in the first breeding season. Having enough paddock area also helps them to be able to settle the cows quickly and efficiently. We recommend mating loads of only 25-30 females. Never overwork young bulls. As they are not fully developed they will be leaner and carry less body fat reserves. If their condition score declines to below 3, sperm production may be compromised. Their condition is essential for good fertility. It is also important to note that the joining season may need restricting to 6-8 weeks if conditions are extensive and where good quality feed is unavailable.

Mating

Cows should be seen cycling in groups with male calves hanging around before mating. If using several young bulls, they should be run together for a few weeks prior to joining. This should reduce problems later on as they will have already established a hierarchy. Also, young bulls that have been recently purchased should not be joined together with older bulls.

Always observe your bull when he is working as accidents can happen. Bulls can scratch their penis on dry manure on the cows backside which can lead to infection with large sores forming. If treated quickly this can be remedied. If a bull is not serving he needs to be replaced, but remember, if the cow has been served before the observer has arrived, the bull may not repeat the performance. Remember any day he is not working can cost you money.

Nutrition

When your new bull arrives at your property, provide adequate hay and water and leave him alone until the next day so he has a chance to settle. Before you join your bull with a herd, the cows should be on a rising plane of nutrition to ensure they have the greatest possible chance of cycling. When the season is finished, the bull should be put away with quality, adequate feed, as this will help prevent fighting.

Please remember: Always respect your bull and he will respect you.

HOW IMPORTANT IS THE BULL IN YOUR BREEDING PROGRAM?

The importance of the bull in a cattle breeding program is often underestimated. A bull is responsible for half of all the genetic material in your herd, making it your most valuable investment. Consider that a cow produces just one calf per year, passing on her genetic material to her one calf, whilst a bull paired with the cows in your herd passes on his genetic material to all progeny. This can be 20 to 50 calves per year or more than 200 calves over the lifetime of the bull. A good quality bull can improve your cattle herd for generations.

All bulls should go through a breeding soundness exam before each breeding season. Here at Waratah Speckle Park, our bulls are examined by a qualified vet before the sale. Knowing that the bull impacts half of all calves bred each year, it is good to know how much this investment really costs. When purchasing a bull it is important to remember, the price of the bull can be offset by the future sale value of his progeny. Better quality calves have higher sale value and therefore return the value of your investment. Below is a table which shows the number of calves needed to pay off the price of the bull at different calf sale weights.

Assuming a sale price of \$3/kg, a \$4,000 bull would need to breed 5.33 calves weighing 250kg to pay for himself while a \$10,000 bull would only need to breed 13.33 calves. To offset the higher initial bull investment only 8 more calves are required to be bred in the first year. Thereafter, the bull's continued production of quality calves has the potential to attract a higher sale value. Using Waratah Speckle Park Bulls in your cross breeding program will inject hybrid vigor into your herd increasing weaner weights which can lift sale prices. Remember, investing in a good quality bull can be offset by the future sale value of his progeny and improve your cattle herd for generations to come.

Bull Price	Weight of Calves At Sale (kg)	Number of calves needed to pay off bull price
\$4,000	300	4.44
	250	5.33
	200	6.66
\$6,000	300	6.66
	250	8
	200	10
\$8,000	300	8.88
	250	10.66
	200	13.33
\$10,000	300	11.11
	250	13.33
	200	16.66

****Assuming a price of \$3/kg***

UNDERSTANDING COLOUR PATTERNS - GUIDE ONLY

It is important to understand how Speckle Park colour patterns work in order to achieve your breeding goals. While some breeders are mostly interested in producing speckled cattle others want to inject Speckle Parks' notorious hybrid vigour while retaining predominantly black herds. For example, when a solid black Speckle Park bull is joined with 100% purebred Angus cows the resulting calves will be predominately solid black. Another example is when Angus cows are joined to a white Speckle Park bull the resulting calves will be predominately speckled.

Speckle Park cattle have four distinct colour patterns; speckled, leopard, white pointed and solid black. The speckle and leopard colour pattern are genetically the same except for varying degrees of spotting. Some Speckle Park cattle can produce red colour patterns if both parents carry the recessive red gene.

Please remember when dealing with nature individual results will vary. This is to be used as a guide only.

Unable to make sale day – Bid online at home via live internet broadcast.

Waratah is excited to partner with Elite Livestock Auctions this year allowing clients to live bid from home. Our sale will be broadcasted live via the internet, with full video, imagery and sound allowing clients to bid online in real-time. Buyers can view the auction and bid using a computer, iPad, iPhone or Android devices. To register and bid follow the step by step guide provided below.

If using this facility it is highly recommended to register before sale day.

HOW TO REGISTER with ELITE LIVESTOCK AUCTIONS

Welcome to the new age of selling livestock in Australia and **"Happy Bidding"**

-  1 Simply go to **www.elitelivestockauctions.com.au** using your desktop, laptop, iPad, iPhone or android device
-  2 Click on the **"Sign Up"** page / link
-  3 Create a bidding profile using the bidder registration page.
(You can either register as a livestock agent, company or private buyer.)
-  4 Agree to the Elite livestock Auctions Terms & Conditions and the Selling Agents Sale Terms & Conditions as printed in the official Sale Catalogue
-  5 Click **"Register"**
-  6 You will then be notified by email that an account has been created
-  7 Once an account has been created you are all **"Set to Bid"**
-  8 Each auction can then be viewed by clicking **"Live Auction"** logo on the Elite Livestock Auctions website
-  9 Once you receive email notification that your account has been created please go to the sale you wish to bid at and click **"Request to Bid"**
-  10 The sale agents will then approve your application to bid and on the sale catalogue you will see **"✓ Bid Request Approved"**
-  11 On Sale day simply login, click **"Enter Auction"** on the catalogue page and you can start bidding.
(There is no need for software download)
-  12 At the completion of the auction, invoicing will be carried out as per your registration details by the Selling Agents.

Purchaser: \$.....

FLUSH - PICK OF WARATAH COWS

LOT 103 1 FLUSH: PICK OF WARATAH COWS TO FLUSH

Notes: Waratah is offering a pick of the herd flush. That's right the entire herd! The successful buyer will be able to pick one female from the entire herd to flush once. All females will be available to flush once calved. Waratah guarantees a minimum of 5 embryos to a maximum of 15 embryos. Any embryos over 15 will be split between the buyer and Waratah Speckle Park. Flushing and transport costs are the responsibility of the buyer. Waratah cows average 9 embryos per flush.

If you want to jump the que in the Speckle Park business this is an opportunity not to be missed.

Purchaser: \$

Laiton Turnham
‘Waratah’
GUYRA

24 May 2017

On the 23rd of May 2017, I Dr Leisa Brown of Guyra District Veterinary Services carried out a breeding soundness evaluation on each bull listed in the 2017 ‘Waratah Speckle Park’ catalogue. This included:-

- *A physical examination*
- *Examination of the reproductive organs* – Internal palpation, measurement of scrotal circumference and full examination of penis and testicles
- *Semen collection and assessment of gross motility*

All bulls have also been tested for pestivirus antigen by ear notch at Swans Veterinary Services and returned a negative result.

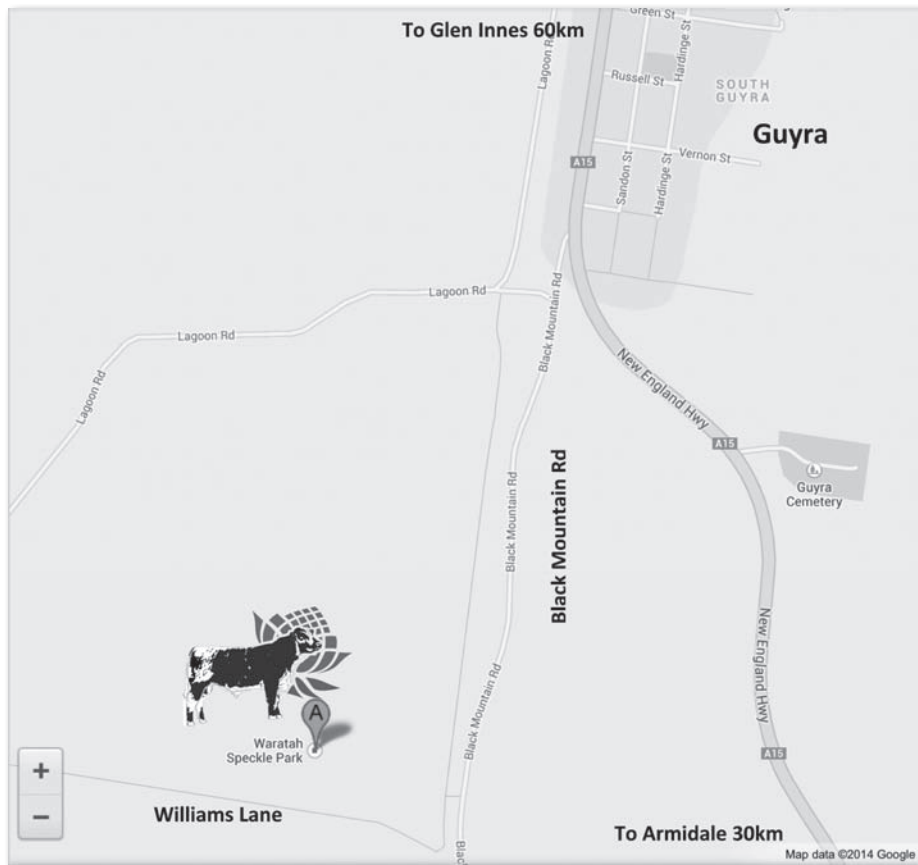

Each bull listed in the 2017 Waratah Speckle Park catalogue has been found to pass the requirements set by the Australian Cattle Vets Association for a bull breeding examination.

Yours sincerely

Dr. Leisa Brown, BVSc Hons 8292.
Guyra District Veterinary Services

DIRECTIONS TO WARATAH

Thank you

We would like to express our sincere thanks for joining us here today at Waratah for our annual sale. We hope this year's cattle offering enabled you to find the ideal animal to compliment your cattle operation. We wish you the very best with your purchases and look forward to your company in years to come.

Thank you also to our sponsors for supporting this year's sale. We would also like to acknowledge the incredible help and support we receive from our family and friends each year in the lead up and on sale day. Their contribution makes this day a success and we could not do it without them.

Safe travels home and until next year...

Regards,

Eric, Helen, Laiton, Kayla & Dustin Turnham

What others have to say ...

Thank you Waratah ...

'In September 2015 we purchased two Speckle Park Bulls from Waratah, we are very pleased with them as they have exceeded our expectations. Thank you!'

Tania and Gary Cole
Walcha, NSW

Speckle Park Steers Perform

'Mort & Co have had outstanding results feeding Speckle Park, Angus cross steers. The 100 day steers averaged >1% above the average for dressing percentage, while the mid fed steers (150 -200 days) had an average marble score of 2.6. Mort & Co would have no hesitation purchasing feeder steers sired by Waratah Speckle Park bulls'.

Berry Reynolds
Private Client Manager,
Mort&Co

Waratah Highlights

OVER THE YEARS WE HAVE WON A NUMBER OF AWARDS FOR OUR CATTLE. HERE ARE SOME OF THE HIGHLIGHTS...
